

How to fold a napkin

Use a square cloth napkin and place it like a diamond with the seams facing upwards.

1. Fold the bottom corner up to the top corner (creating a triangle)

2. Fold the bottom left corner up to the top of the triangle, then repeat for the bottom right corner to create another diamond $\frac{1}{4}$ the size of the original napkin

3. Turn the napkin over sideways

4. Fold the bottom corner upwards to the top corner (to create another triangle)

5. Fold the bottom left and right corners together then tuck the left corner into the folds of the right to create a loop

6. Stand the napkin up and allow the two front leaves to hang down to finish
